

38th Annual Macklin Symposium

Bridging the Gap Between Primary and Specialty Care

as a team we can continue to treat and manage our patients most effectively!

Symposium Topics Include:

- On-line Resources
- Vascular Disease
- ADD/ADHD
- Chronic Pain
- Back Pain
- Shoulder & Knee Pain
- Depression
- Obesity
- Breast Health
- Gyn Challenges

**Where: Naval Medical Center Portsmouth
Auditorium 15 & 16 September 2005, 0800 - 1600**

This symposium is designed to address common conditions seen by Primary Care for which patients are referred to Specialty Care. Primary Care providers chose the topics. Our Specialists are passionate about presenting the most recent evidence-based information on the evaluation and treatment of patients with these conditions. The symposium will be offered on 15 Sep 2005 and repeated on 16 September 2005, to allow maximum participation. A Health Fair will also be available, showcasing ancillary services available at NMCP. Hope to see you there!

For registration and additional information, please contact Sheila Manifold at 757-953-7568, fax 757-953-0090, or at SJManifold@mar.med.navy.mil. Information is also on the NMCP Homepage. Please register by 09 September 2005 to reserve a box lunch. On site registration is available. CME/CUE credits awarded
